United Parcel Service

Regarding John Welsh

As you know John Welsh is a long time patient of ours who has a heart condition and an internal cardiac defibrillator (ICD). As in our previous correspondence he should not lift packages more than 40lbs in weight.

He is having surgery on Monday 14th January.

Once he is better he should be able to work up to 10 hours a day. He is currently restricted to no more than 8 hours.

If you need any more information please do not hesitate to call me.

Yours Sincerely,

Mark V Sherrid, MD, FACC, FASE

To: Ridolfi Michael (NYC2MXR)
Subject: John Welch

Mike,

I am confused at this point. You claim I was on disability while I was working in the past 6 months. You seem to think that the restriction of my hours places me in that capacity, of which I disagree. I am now told that I must call in a long term disability claim, and I believe that is certainly not appropriate. I was cleared by my doctor for the sleep apnea. This past surgery constitutes a new claim. I am prepared to return to work, and now I am told I can not. It seems to me that someone is unaware of the laws that pertain to the ADA. By the way, the HRIS system never had me classified as being on disability.

I think it is very important to note what precipitated the request for accommodations six months ago. I was placed on the Nassau Preload, and forced to handle packages all night because of insufficient staffing. I was a victim of circumstance, but I was also not protected by those in Human Resources who were in receipt of numerous doctors notes, each explaining that a job of that nature is placing me at "considerable risk of sudden death"! If anyone was responsible for me blacking out, then it certainly needs to be viewed by a neutral and impartial party. I had filled out the ADA request with Alma Franco, and I will certainly entertain the opportunity for you to reach out for her to validate that occurrence. Perhaps Kevin Dilibero can answer why I was placed in a job outside of my restrictions, after having filled out the ADA paperwork with an HR manager. It was not me who failed to see the process through to the end.

Now I am being told that my pay will be affected because my doctors did not provide ample information so that I may be cleared to work. I have also received documents indicating that my benefits will be cut. The sleep apnea has been addressed and all pertinent information was forwarded to you. This past surgery has nothing to do with the sleep apnea. I suggest that you get the story straight before considering that I am negligent in providing medical proof, or perhaps classifying this as a "long term" disability.

I have done all I can to make the Long Island District Human Resources Department aware of the illness that has taken the lives of my brothers at a cruel young age. This illness does not tolerate the activities that I was forced to undertake while on the preload. I can function in many capacities, but lifting and sorting packages for three hours a night was certainly an invitation to the circumstances that caused my brothers to die. I just wanted to go do the job that was charged to me, as I have always done.

I am unafraid of the apparent retaliation and disability discrimination that I am presently exposed to,

2/5/2008

D0665

and I will have no problem taking this to a higher level. In the past, I have spoken to Kevin Dilibero, and that is exactly where it ended. It might be important for the HR Department to reflect back on allegations I have made in the past with regard to discriminatory behavior that I was subjected to. Foster Div. Mgr. Tom Cuce, in the presence of witnesses, told me that my illness was causing a problem to him, and that he doesn't have a job for someone like me. He mentioned that he needed to weigh whether he needed to feed his kids or my kids. He told me that it was his kids that will be eating and not mine. By the way, the witness is willing to bring testimony if necessary. I was asked by Cindy Miller, then the Div. Mgr. of Foster Avenue, as to what medications I was taking. She wrote them down, and promised to look into the fact that it was perhaps effecting my intensity. This came to her through an allegation made by then Supervisor, Tom Soregaroli, who reported to me. Incidentally, I was busted a week later, without cause. I tried to fight, but chose to walk away quietly. Perhaps I was discriminated against, and I am now financially burdened by the reduction to supervisor for the past 8 years.

I am over 40, disabled, and a veteran! I know my rights, and I can surely prove that the only thing I have done wrong, was to get sick. Dr. Sherrid's office has faxed information to Dr. Hershey, but refuse to divulge the details, as they do not want to violate the HIPA laws. You might want to read the article I have attached. I am tired of being made to feel that I have done something wrong. All I want is to be able to do a job with fear of unwarranted attack, something that is seemingly prevalent in the Long Island District. I don't know what to do at this point. Should I involve Norm, the Board of directors, the V.A., a legal entity; or should I once again allow the HR Department to fail me once again?

Never miss a thing. Make Yahoo your homepage.

Subj: John Welch - Meeting

On Jan. 31, 2008 a meeting was held with John Welch with Doug Trandach (ERM) present.

I explained to John the purpose of the meeting was to clarify John's misunderstanding of his status and to address the concerns regarding his uncooperative behavior with not following through with requests from the medical department and keeping his manager informed.

To summarize the discussion, I reviewed the following issues with John:

- He must keep us informed when he is absent from work. He has failed to do this with his manager and it is well documented.

- I gave John an explanation of how the disability process works for Income Protection Plan and told him that objective medical information is reviewed by Aetna and that a determination of approval/denial is made by Aetna.

- I explained to John that no one has discriminated against him as he alleged. I said we have tried to work with him but the cooperation must work both ways. John agreed and said that he does overreact sometimes.

- I told him his assertion that I placed him on the Nassau prelead is false. He was the one looking to get out of safety and spoke with the division manager and an arrangement was made by Jim Kirk to help out John and work on the Nassau prelead.

It was arranged to accommodate John to fill a need on the Nassau prelead.

- I told John that he must not make assumptions based on his confusion of the facts. Moreover, his misunderstanding of our intentions to help him work through this is just complicating the matter. I told him that we need his cooperation so that his medical issues can be addressed according to the ADA process.

- I told John we want to work with him on his issues but it requires his

help to cooperate with us and it will lead to a reasonable solution. I asked John to call us anytime with any questions and the meeting ended on a positive note.

631.756.3841 Tel

February 4, 2008

Mr. John Welch
241 Koehl Street
Massapequa Park, NY 11762

Dear John,

I am in receipt of your January 24th email to Mike Ridolfi, and wanted to take this opportunity to clear up any confusion you may have with regard to your employment status. As an initial matter, you seem to disagree that you were "on disability" during the previous six months in which you were performing work for UPS. Our records do, in fact, reflect that you were approved for short-term disability ("STD") benefits from July 2, 2007 through December 30, 2007 under UPS's Income Protection Plan ("IPP"). The medical documentation you provided indicates that during this period of time, you were restricted from working more than an 8-hour day. As you know, the essential functions of your position require that you be able to work at least 9.5 hours per day. As a result, your return to work from July 2, 2007 through December 30, 2007 was under the Income Protection Plan's Residual Disability/Return to Work Program. A Residual Disability assignment does not extend your STD benefit period. Please see the IPP section of the Flexible Benefits Plan Summary Plan Description for further information on Residual Disability. Because your short-term disability benefits expired on December 30, 2007, (and you had not yet filed a claim for long-term disability benefits) you no longer had an approved disability claim and, as such, no longer qualified for residual duty.

You further state in your January 24th email that you were told (1) your pay and benefits would be affected because your doctors had not provided information to clear you to return to work; (2) that your sleep apnea has been addressed; and (3) your past surgery is unrelated to your previous diagnosis of sleep apnea. As such, you disagree that you must now file for long-term disability benefits.

I will try and respond to each of these concerns. First, your pay and benefits were temporarily discontinued because your short-term disability benefits had expired and you had not yet filed for long-term disability benefits, nor had you returned to work to perform the essential functions of your position. Although not obligated to do so, we have resumed your pay and benefits while we attempt to work with you to resolve this matter.

75 Smith Street
E. Farmingdale, NY 11735
631.756.3841 Tel

Second, you indicated that you have provided documentation to UPS demonstrating that your sleep apnea has been addressed. I assume by this statement that you mean you are no longer restricted to working 8 hours per day. However, as of February 1, 2008, we have not received medical documentation releasing you to perform the essential functions of your position, which requires that you be able to work 9.5 hours per day. If you believe you have sent this information to UPS, I would request that you resend it to my attention, and I will promptly review it.

Third, I would like to respond to your statement that the January 9th letter instructed you that you must file for long-term disability benefits. The January 9th letter to you was in response to the expiration of your short-term disability benefits, which had been previously approved from July 2, 2007 through December 30, 2007. It was explained that with the expiration of your short-term disability benefits on December 30th, you had a number of options available to you. You could either (1) apply for long-term disability ("LTD") benefits under UPS's Income Protection Plan ("IPP"); (2) submit medical documentation to UPS substantiating your inability to return to your regular work duties sufficient to justify placing you on a personal-leave status; or (3) submit sufficient medical information to return to your regular work duties. The letter did not tell you that you were required to file for long-term disability benefits, but rather, that it was an option available to you with the expiration of your short-term disability benefits. At the time that the January 9th letter was sent to you, I did not know that you had filed a second claim for short-term disability benefits that is, per your January 24th email, apparently related to a heart condition. However, I have since confirmed that your second claim for short-term disability benefits, which was filed on December 18, 2008, was later denied on December 20, 2007.

Therefore, let me summarize your current employment status: Your first claim for STD benefits expired on December 30, 2007, and we have no documentation that you have submitted a claim for LTD benefits in connection with this medical issue. Your second claim for STD benefits was filed on December 18th, but denied on December 20th. Currently, therefore, you have no approved claims for benefits with Aetna. Without an approved claim, you are not eligible for the IPP's Residual Duty program. Furthermore, to date, we have not received medical documentation releasing you to perform the essential functions of your job. At this point, you have several options: (1) immediately submit sufficient medical information to Aetna to justify a claim for either STD benefits or LTD benefits under UPS's IPP; (2) submit medical information to UPS to return to

75 Smith Street
E. Farmingdale, NY 11735
631.756.3841 Tel

your regular work duties; or (3) submit sufficient medical information to the Company to meet the requirements for leave under the Family and Medical Leave Act ("FMLA"). If you believe that you may be eligible for leave under the FMLA, please have your physician complete and return the enclosed certification with 15 calendar days of your receipt of this letter. It is important that you respond to this letter with 15 calendar days, or your pay and benefits will be affected, and your job may be placed in jeopardy.

Finally, I would like to respond to your allegations that you have been discriminated and retaliated against based on your medical condition. Let me assure you that your (1) claim for disability benefits under UPS's IPP; (2) your status on residual duty; and (3) your pay have all been handled appropriately. Nevertheless, the Company's policies and practices seek to ensure a working environment in which employees treat each other with respect and dignity and feel comfortable bringing concerns or complaints to all levels of management. Consistent with UPS's policies in this regard, I will investigate the concerns raised in your recent correspondence and, if proven true, also take steps to ensure that appropriate, corrective measures are taken to prevent any future discrimination, harassment or inappropriate conduct. In order to ensure that my investigation is complete, however, it is important that you provide me with a written description of all of the incidents or events that you believe constituted discrimination, harassment, or otherwise inappropriate behavior, including a complete description of the incident or event, the date, time and place that the incident occurred, the names of all individuals involved in the incident, and the names of any witnesses to the incident.

Sincerely,

A handwritten signature in cursive script that reads "Kevin DiLibero".

Hi Jean,

John Welch has not RTW and does not return calls to myself nor Aetna. He has been approved only till 4/13/08 and they plan to deny any further disability however a formal denial will not come through until 4/28/08.

Is there any way you can release his pay only until the 4/13/08 date and should anything change we could then make up the difference.

He may only surface once we cut the salary.

Thanks,

Irene

Dear John:

On May 2, 2008 Aetna notified UPS that your claim under UPS's Income Protection Plan had been denied. As a result of Aetna's determination, you have several options: (1) immediately return to your regular work duties; (2) immediately submit sufficient information to Aetna to justify the reinstatement of your STD benefits; or (3) have your physician complete the attached Work Status Form stating that you are unable to return to your regular work duties.

You should understand that it is important for you to respond to this letter within 15 calendar days. If the Company has not heard from you within this time period, your employment may be terminated for job abandonment/failure to report to work without a valid excuse.

If you have any questions, please do not hesitate to contact me at 631- 756- 3828.

Sincerely,

A handwritten signature in cursive script that reads "Irene Gordon".

E. Farmingdale, New York 11735

Dear Irene,

Before I elaborate further regarding your most recent correspondence dated, May 20, 2008, I must first impress upon you to share this document with Kevin Dilibero and all necessary parties.

I am in receipt of your letter that states my benefits have been denied by Aetna. (Effective 30 April 2008) After calling Aetna this morning, I discovered the letter had been sent to my previous address in Massapequa. I have updated my personal information to show my current address in Commack, New York.

Tracey from Aetna Disabilities had made me aware of the deadline of April 30th prior to that date. I reached out for Doctor Bahatnagar, and assumed that his commitment to satisfy the delivery of my personal information to Aetna was going to result in that information being received prior to the deadline. I certainly impressed upon him the need to insure that Aetna be provided all supporting documentation. I never received any correspondence from either UPS or Aetna from 30 April 2008 to present.

Your letter states that I must either return to work immediately, submit sufficient information to Aetna disabilities substantiating my continued absence from work, or have the doctor complete the attached work status form. The letter further states that my failure to respond to this letter will result in my termination. This would only seal the plan for me in the eyes of the Management of The Long Island Human Resources Department.

I think it is kind of ironic that you are now asking me to return to work, when previously I was told that I must stay out until I receive a 100% return to work. Doctors at the sleep study clinic are reluctant to do so, given the danger of driving without the appropriate sleep remedy and solution. I never once asked to be out of work. I was told that I must go out because the doctors wouldn't provide the clearance for me to work without restrictions. The only party having any problem with my returning to work with restrictions is UPS. I should never have left work. The ADA states that I shall be provided reasonable accommodations with which to work. Why could I not be afforded the opportunity to have a modified schedule? I can name people who have been working

8 hour days for years now. The double standards I face and the harsh measures are only proof to me that perhaps my valued confidant was correct when I was told over two months ago that there was a plan to administratively terminate me.

The letter I sent dated 7 April 2008 outlining the discriminatory remarks/behavior I have been subjected to, has not received the attention it certainly warrants. I am to assume that UPS's failure to respond to these issues is yet another indication that my interaction must be taken to a level where I can best protect my career at UPS. This failure to respond in nearly 40 days is yet another example of the lack of consideration on my problems by those entrusted to live up to the letter of the law with regard to our most valued asset, "our people".

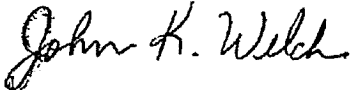

I have done nothing wrong! Was it me who "dropped the ball" on my first ADA request? Was it my fault that I was not told I was on disability during the period of June to December 2007? Sure, I was told in hindsight that the system showed me as being on disability. Where is the documentation that was sent to me describing that I was on disability for that period? Aetna has no record of this. Are there alternate systems that do not dovetail this data between Aetna and UPS? Was it my fault that I was not afforded the reasonable accommodations the ADA process is synonymous for? This can not be afforded to me when someone drops the ball on the process being completed. Was it my fault that after filling out the ADA request with a certified HR Manager, that I would once again be placed in a job that endangered my life? The management of the Human Resources Department of the Long Island District has not been my advocate or partner. Kevin Dilibero, instead of providing for me a resolution, decided to also threaten me with termination. Since my illness has not been worthy of positive attention, perhaps I must now take measures to ensure my job remains intact. I also notice that my tuition has not been paid as promised. I am bewildered and amazed at this treatment. 21 Years of service to this organization, following 8 years of dedication to the Marine Corps, should warrant treatment respectful to my effort and dedication.

Instead of these threatening letters, perhaps a phone call to provide me support in navigating this impossible problem would make more sense. I have kept this problem within our circle here on Long Island. Because it seems that I am going to be terminated unjustly, I will now take measures to strengthen my position as you have already been made aware, but choose to not follow-up. I assume that because no response was given to me regarding my allegations of discrimination, I am now free to seek help elsewhere.

Your failure to treat me as a partner and dedicated UPS'er has certainly paved the way for me to now reach out to the highest authority at UPS..Perhaps our CEO, Mr. D. Scott Davis would be eager to know what has transpired. I can say for certain that I do not want to take this battle to the highest level. The EEOC will be made aware of the discrimination that occurred in the past and that it continues today. I have no choice but to go to outside support because those entrusted in seeking the truth have refused to respond accordingly.

I can be reached at (631) 462-0695. My previous number (516) 220-2227 is not functioning. Your failure to respond will only make it necessary for me to enforce the support of the aforementioned authorities. I have not felt the need to seek outside intervention, but the recent language and direction of this past correspondence now gives me reason to be concerned.

Respectfully,

A handwritten signature in cursive script that reads "John K. Welch". The signature is written in dark ink and is positioned above the printed name.

Record Information

Name: Notes for Bob Rizzo

Date	Notes
5/27/2008	Called Mike and asked about the interviews for the re-audit. He still did not get them back and has not asked for them until I ask. Mike does not communicate with me or the managers when he runs into a problem. He seems to lack the leadership skills that his job requires. He does not communicate with me as often as he should. I plan to have more conversation with Mike about moving forward in this position.
5/28/2008	Called John Welch on work cell. Left message on his phone.
5/29/2008	Kevin DiLibero asked me to contact Irene Gordon about John's return to work which was faxed to Melville today. I called Irene to confirm John's return and she said he was OK to return to work - no driving and 9 hour restriction. I called John from my house and left message with little boy (son). John returned call at approx 949 pm but I was sleeping due to early work. Received email from Irene about John. John emailed her about what has been going on with him. Copy in file. Received text from John at 414pm. It says: "Bob...hope you having texing. My phone broke and only the texting works - dated May 29 414pm"
6/2/2008	<ul style="list-style-type: none"> Meeting with John Welch - first day back to work. Met with Irene and reviewed status and job responsibilities (see write-up). Reviewed VSTA certification with John and recapped tasks we discussed Monday including: Daily log of his activities to be emailed to me each day, 2 calendar's - one for ESTA certifications Melville preload and one for Huntington S&V's rides to be completed by end of June. Copy given to Jim Kirk and reviewed with Norm.
6/3/2008	Talked with John about what we reviewed Monday as far as activities and plans. John gave me hand written calendar for S&V rides for Huntington. The plan is to have all 33 overdue rides complete by last day in June. John also is to complete all ESTA on preload by end of June as well. John still has transportation issues as well as phone concerns. There is no way other than text to contact him.
6/4/2008	text John to find out where he is. His start time is 500am - arrived at 533am - said he took bike to work from Commack in the pouring rain and wind approx 15 miles.. I told John he needs to find a more efficient way to get to work It took him 2 1/2 hours to commute 15 miles.
6/9/2008	Meeting with John to review his first week. John exceeded his allowed hours and I explained to John that it is his responsibility to monitor and inform me if it looks like he may go over on any given day. I also explained that if for some reason he does exceed the 9 hours per day, then we would adjust accordingly. I also reviewed with John that he did not follow the plan for rides which was to leave facility with a driver to get the max time. On a few occasion last week, he did not get to first driver until 1100am. - 1200pm Mike Adragna called to center (Hauppauge) for a on road spill
6/10/2008	Mike Adragna called again to go on road for a spill. Received email from Kevin DiLibero from John Welch (see file) The email talks about his return to work, being denied any assistance, not being allowed to work and not being paid for May. Doug told John that he could appeal to albany and that DiLibero had nothing to do with the pay issue and that it was a medical documentation problem. I called john and asked him if he was coming into work Wednesday to Nassau and he said yes. I informed John that he should do what we suggested yesterday and file an appeal for mays pay. I aslo told him that I did not know anything about the ADA request with Alma and that he should talk to Kevin DiLibero about that. I wished him luck in his new job and told him to keep me informed on how he is doing.

To: Steve Wiederhold
Fr: Chris Travaglia
Re: John Welch

June 10, 2008

On June 10, 2008 John Welch reported to the Nassau preload at 3:00 A.M. I met with John at approximately 3:15 A.M. I welcomed John to the preload and asked him about his restrictions. John proceeded to tell me about how the company has fucked him in the past. John said that H.R. had fucked him, in particular Kevin Dilibero and Jim Kirk. I told John that I had no problem with him and that as far as what happened in the past I did not care. I asked John about his restrictions and he told me he could not work over 9 hours or lift anything. I TOLD John that that would not be a problem and then instructed him that he is not to touch any packages as long as he has a restriction. I then asked John what time he would like to come in and he stated that he thought that 3:00 A.M. was too late for the preload and I agreed. We then mutually agreed on a 1:00 A.M. to 10:00 A.M. shift. John said that was very reasonable and that he would give me 110% and do his job the best he could and wanted to be part of the team. I the told John that I would need him to oversee slide and boxline 3 and john said that would be great.

Chris Travaglia
Nassau Preload Manager

631.756.3841 Tel

January 11, 2010

Dear John:

On January 8, 2010, we received notification that you requested a job-related accommodation because of a self-reported medical condition. In order to assess your request adequately, we need additional medical information regarding your reported condition and the way in which it impacts your ability to work at UPS.

Accordingly, enclosed is a Request for Medical Information form to be completed by your physician and an Authorization for Release of Health Information form to be signed by you. Please provide these forms to your physician and then mail the completed forms to me at the following address:

Irene Gordon , Occupational Health Supervisor
UPS – 75 Smith St Farmingdale, NY 11735
631-756-3828

Because we cannot continue our assessment of your request until we have received the completed medical forms, it is to your benefit to return this information as quickly as possible, preferably within the next two weeks. If you fail to return the forms within four weeks of the date of this letter without authorization from me, UPS will consider you to have withdrawn your request.

If you believe that you are completely unable to perform in your current position due to medical reasons now or at any time during our evaluation, please contact Michelle McKenzie at 718-706-3022 for information concerning your eligibility for medical leave and benefits.

If you have questions relating to the above, please call me at 631-756-3828. If our information is incorrect, and you are not seeking a job-related accommodation, please notify me immediately. I look forward to working with you.

Sincerely,

Irene Gordon
District Occupational Health Supervisor

Dear John,

On February 3rd, 2010, we notified you that your failure to submit medical information concerning your request for a job-related accommodation would be viewed as your withdrawal of the request and would result in the termination of our evaluation. Since that time, UPS has received no communication from you or your physician. Accordingly, this is to confirm that we consider your request withdrawn and are discontinuing processing your request at this time.

If you have questions relating to your employment status at this time, you should contact the District Workforce Planning Manager.

Sincerely,

A handwritten signature in black ink that reads "Irene Gordon".

Exhibit 43

10 March 2010

Dr. Sherrid,

Enclosed is the ADA request my employer wants filled out....yet again. I have completed three of these forms in the past few years. They are expecting that my restrictions are going to change.

The key points are:

- 1- I can not lift over 40 lbs.
- 2- I can not lift packages repetitiously.
- 3- I should not be required to work extensive hours. They have worked me as much as 70 hours. We have agreed to a 9 hour work day. That should remain intact.
- 4- I am prohibited by the Dept. of Transportation to operate a commercial vehicle as a result of having the Defibrillator.
- 5- My shift should be during normal business hours and should not fluctuate. No overnight shifts. I have sleep apnea, restless leg syndrome, and bi-polar disorder.
- 6- I should be afforded the opportunity to work in an environment conducive to my restrictions and free of harassment.

If you could kindly look through the ADA packet and fill out your portion, keeping in mind that this be returned to the address on the enclosed self-addressed envelope. I appreciate your time Dr. Sherrid. I am also very grateful for all you have done for me and my family throughout the years. Your efforts have always been those that have been in keeping with the highest traditions of your profession. Thanks Dr. Sherrid. Semper Fidelis.

UNITED PARCEL SERVICE

Employee's Name: JOHN WELCH

A. Instructions

The employee listed above has submitted a request for a job-related accommodation arising out of a medical condition. In order for UPS to assess the employee's request, please complete the following information and return it to:

Occupational Health Supervisor – Irene Gordon - Confidential
UPS - 75 Smith Street
Farmingdale, New York 11735
631-756-3828

If you have any questions relating to the completion of this form or need clarification of any of the information requested, please call the Occupational Health Supervisor at the number listed above. If additional space is necessary, please feel free to attach additional sheets. UPS appreciates your cooperation and assistance.

B. Requested Information

Attached to this form is a description of the essential functions of the employee's current position with UPS. After reviewing this description and evaluating the employee, please answer the following questions.

1. Is the employee currently able to perform all of the functions of his/her position?

____ Yes ☒ No

2. If the answer to Question 1 is "no," using the enclosed essential job functions form, please identify the specific function(s) of the position that the employee is unable to perform.

No lifting more than 20 lbs
Should not operate heavy machinery
Should not drive heavy ~~Truck~~ vehicles
Intermed cardiac Defibrillator & pacemaker

RECEIVED
4/12/10

3. Please identify the diagnosis or describe the condition that precludes or impairs the employee's ability to perform the specific job function(s) identified in response to Question 2.

Hypertrophic Cardiac myopathy

Sleep Apnea

Restless leg syndrome

Has Internal Cardiac Defibrillator & Pacemaker.

a. For each diagnosis or condition identified in Question 3 above, describe in detail the degree or extent of the job restrictions and state the known or expected duration of the job restrictions (e.g., employee's 40-pound lifting restriction is permanent; employee cannot work more than 4 hours per day and/or on a particular shift for two weeks; employee cannot work in an environment over 80 degrees for 3 months etc.). If the condition is episodic, please indicate both the historic and anticipated future frequency.

HCM cannot do extremes of Exertion or lifting
which would ↑ Blood pressure, & put more
stress on heart. Also lifting weights can fracture
lead on ICD (Internal cardiac Defibrillator)
Sleep Apnea & Restless leg syndrome lead to
fatigue

b. For each job restriction described in Question 3(a) above, describe the activities that the employee can perform within the restriction (e.g., although the employee cannot lift over 40 pounds, she can lift 10 pounds frequently and 25 to 40 pounds occasionally).

Not able to lift more than 20 lbs
Should Avoid extremes of Exertion
light duties

RECEIVED
 4/2/10

4. Questions 1 through 3 above focus on the employee's ability to work. Do any of the diagnoses or conditions identified in response to Question 3 substantially limit the employee's ability to perform any major life activities other than working, such as caring for him/herself, performing manual tasks, walking, seeing, hearing, speaking, breathing, reproducing, learning, eating, sleeping, standing, lifting, bending, reading, concentrating, thinking, communicating, etc.?

☒ Yes ☐ No

5. If the answer to Question 4 is "yes," please identify all of the major life activities affected by the diagnosis or condition and describe the manner in which the diagnosis or condition limits each activity.

lifting, manual Tasks ^{eg} ~~cannot~~ clear snow
Fatigue due to lack of sleep.

RECEIVED
4/12/10

6. In the space provided below, please identify any tests or other diagnostic tools that were used to determine this employee's abilities or the nature of his/her impairment, including the names of the tests or diagnostic tools and the dates on which any such tests or tools were administered to the employee.

EKG, Eclorcardiograms, Holter monitors
listening to heart & regular check up
with cardiologist.

Device needs to be checked every 3 months
by specialist E.P. cardiologists

Dear John:

Over the last several weeks, UPS has carefully evaluated your request for a job-related accommodation concerning your self-reported medical condition. In order to continue our assessment of your request, we have scheduled a meeting with you on Friday April 23, 2010 at 10 AM in the Nassau Building. At this meeting, you should be prepared to discuss in detail what specific accommodation you are requesting.

If the date and time of the meeting are not convenient, or if you have questions relating to the above, please contact me at 631-756-3828. Otherwise, I look forward to seeing you on April 23, 2010.

Sincerely,

Date: August 12, 2010
To: Daniel Minesinger
From: Beverly Riddick
Subject: John Welch

On Thursday August 12, 2010 I had a conversation with John Welch over the phone regarding open job opportunities that were aligned with his ADA accommodations. The jobs reviewed are as follows:

1. FT Supervisor Position (PAS) – Hours 6 a.m. – 4:00 p.m.
2. FT Administrative Position – Region Business Development

I explained to job the hours, location and function of each opportunity. John expressed an interest in the FT supervisory position within the IE function as a PAS supervisor. John asked if he would receive notice as to when to start the job. I told him I would call him back with the details once I had the opportunity to discuss it with Daniel Minesinger, District HR Manager and Chip Napier District IE Manager.

I spoke to Chip Napier on Monday August 16, 2010. He said John can start immediately. He will be working in the Manhattan South center reporting to Frank Torres. A follow up call to John was made on Monday to give him the details of his new assignment.

August 19, 2010

Mr. John Welch
109 Dovecote Lane
Commack, NY 11725

Dear John:

This letter will serve to confirm our telephone conversation on August 12, 2010, concerning your request for a job-related accommodation. To facilitate your continued employment, UPS has offered to reassign you to the Manhattan South facility as a full time Preload Assist Supervisor. You have stated that this is acceptable. Accordingly, you should report for work in your new position on Monday August 23, 2010 at 6:00 a.m. The manager you will report to is Frank Torres. If you have questions before that time, however, please call me at 212-631-6198.

We are very pleased that we were able to reach this mutually satisfactory result. It is our firm belief that the accommodation offered will enable you to continue your employment with UPS successfully. Please keep in mind, however, that nothing in this arrangement is to be construed as an admission that the Company is obligated, contractually, legally or otherwise, to provide you with a job-related accommodation. Likewise, nothing in this agreement alters your at-will employment status, which means that you and the Company each retain the right to terminate your employment at any time and for any reason.

Sincerely,

A handwritten signature in black ink, appearing to read "Beverly Riddick".

John K. Welch
109 Dovecote Lane
Commack, New York 11725

20 April 2008

Kevin Dilibero
75 Smith Street
Farmingdale, New York, 11735

Dear Kevin,

You had asked me when we last spoke to provide you with the details of the circumstances in which I felt I had been discriminated. I will explain those incidents so you can better understand why I make these claims. I am confident that you will address the issues and make me aware of the results of your findings, and what action is being taken, if any.

I had always been very comfortable in management, because we were a tight knit group. Unfortunately, there are those that when they fail, choose to blame others. On 23 August 2000, while serving as the manager on the Foster Avenue Local Sort, I was summoned to the Division Manager's office. Upon arrival to Gerrais Gary's office, I was surprised to find the office was occupied by personnel from the security department. I could tell by the uncomfortable atmosphere that something was amiss. They asked me to have a seat.

On the table in front of Security Manager Ralph Fargado was a stack of papers. I was then questioned by Dan Daly and Ralph Fargado about a problem they were having with Damage Inspection Reports. Apparently, the Damage Inspection reports were not being processed according to proper protocol. I assumed they needed my assistance in resolving the problem. Instead, I was told by Dan Daly that I was to accept full responsibility for the job not getting done. I refused to accept responsibility as it was not my responsibility to perform this task. The clerks did not report to me. The clerks had reported to clerical supervisor James Edgette, who resigned nearly two months earlier. I didn't even know what a Damage Inspection Report was, nor was I ever told that I was responsible for them getting done. The DIR's are to be keyed into the system after being written up upon the discovery of a damaged package. Apparently this was not getting done because there was insufficient clerical staffing, given the fact that numerous clerks were on vacation.

In any case, I was told to meet with Craig Owen, the District H.R. Manager on August 28th, 2000; founders day. Craig reduced me from manager to supervisor and refused to give me an explanation as to why. I asked for it to be provided to me in writing, yet he refused to do so. Craig told me, "We don't do that". I told him that he needed to provide me with the reason for such a grave decision. This is not necessarily

the discrimination I speak of, but rather the result of the discrimination. The true discrimination happened prior to this incident, and continued after I was reduced to supervisor.

Some time prior to this event before I was reduced to supervisor, I was questioned by my then Division Manager, Cindy Miller, as to what medicine I was taking. I thought it was a rather odd question, so I asked her why she needed to know. Cindy told me that she was approached by a supervisor who reported to me (Tom Soregaroli); and he had mentioned that the medicine was affecting my intensity. First of all, I wouldn't classify curses and threats to be intensity, but that is the way Tom Soregaroli perceives intensity, as he was a product of Gerrais Gary. I chose to treat the people with dignity and respect instead of threatening them. Tom brought this information to Cindy, and she acted upon it. Cindy first asked if the medicine was affecting my intensity, then she told me that she was going to look into it. I had nothing to hide, as the medicine was not something that could make me lethargic or without intensity, as was mentioned by Tom Soregaroli. It is also very interesting how I was blamed for failing to insure that the DIR's were submitted on a timely basis, despite it not being my job. Even more ridiculous was the fact that I was busted only weeks later without reason. Perhaps the research of my medicine revealed side effects that were ill received by my Division Manager. If it was perceived that my medicine was a problem, then I too can assume that this was the reason I was busted, as no response was ever provided despite numerous requests. Incidentally, prior to my being busted to supervisor, Tom Soregaroli had called my wife to ask her what medication I was taking. He then reported his findings to Cindy. He tried to present his request to my wife as concern, but all the while, he had ulterior motives that were everything but concern for me.

Another incident that caused me considerable harm occurred after I was reduced from manager to supervisor. I was assigned to the Foster Avenue Preload. I had been informed by my doctor that I had to be evaluated overnight. I brought the note to work thinking it wouldn't be a problem especially given the reason why I needed the day off. I soon found out that my doctor's request became a huge problem. The Division Manager, Tom Cuce, summoned me to his office. Upon arrival, I saw that Paul Turner was also sitting waiting to see Tom as well. Paul Turner is a diabetic, and therefore could not fulfill all of the requirements of the job he was assigned, as he was without a DOT card. Tom was disrespectful and forceful when he mentioned, "Your diseases are causing me a huge problem". He also said, "I may not have a job for either of you".

The conversation became even more discriminatory when he told us that he has a job to do, and cannot have people on board who couldn't do the job. Paul and I are hard working and dedicated UPS'ers that came upon unfortunate health issues beyond our control. Instead of support, we became attacked. What made it even more ridiculous was Tom's lack of concern. He told us that he has a choice to make. His exact words were, "My choice is to either feed my kids or your kids". He held his arms out, palms up, replicating a scale. When one hand went up, the other went down. He

gave these arm signals as to mention that his kids were more important to feed than ours. The cold grim reality was evident in his message. Because we were presented with an illness that impeded our duties, we became a liability in the eyes of Tom Cucce.

Another reason why I think I am discriminated against is the fact that certain rules do not apply to me. My doctor sent a letter stating that the requirements of my job were putting me at considerable risk for sudden death. This letter is in my medical file. In January 2006, I filled out an ADA request with Alma Franco, a manager in the HR Department. I was subsequently placed in the CHSP job in Island City. This would lead me to believe that the ADA request had followed the proper channels. I was finally doing a job that was conducive to meeting the restrictions my cardiologist demanded. Not a year had passed when I was transferred to the Nassau Preload. I never said a word because it is not in my makeup to complain. I simply wanted to follow orders and do the best job I can. In my first month on the Manhasset Preload, I realized that things had gotten worse. I often worked 13 to 14 hour days, and because of the conditions of the job, had to sort packages on the slide every night. The first half of the preload was under-staffed, and therefore I was required to sort packages to prevent the operation from going under.

One night after sorting I felt dizzy. I walked down the platform and fell off, striking my head on the concrete floor. I saw Mike Ridolfi that day and mentioned the incident along with my concerns. Mike told me that we had to file a new ADA request because someone had "dropped the ball" on the first one. The first ADA request did not follow the proper channels, and as a result, it never became finalized. I guess this is what paved the way for me to be transferred back to operations.

I still am confused about the whole disability process because I am receiving conflicting messages. I was not told that I was on disability from June to December 2007. I figured because I was working throughout this period, I could not be classified as on disability. You told me that because I was on restrictive duty working only an eight hour shift, I was classified as on disability. I never once worked an eight hours shift during this time frame. I worked anywhere from 10 to 14 hours trying to get caught up on the mess that I was left with Nick Laroque's departure almost two months prior to my arrival. When I tried to call this recent claim in to Aetna, they told me that I was not on disability from June to December. How can UPS have me on disability and Aetna doesn't know about it? I didn't request to be on disability either. I also received a letter from Wendy Marshall that stated if I did not provide medical documentation, the ADA request would be dropped; it would be assumed that I was withdrawing my request. I also didn't know why I had to fill out this request after my doctor had furnished a letter stating my restrictions years earlier.

So here I am, once again on disability without having requested to be. I am suffering emotional stress as a result of this treatment. Just recently I was informed by a reliable source in H.R. that there is an ongoing effort to "administratively terminate" me. I think it is preposterous to think that someone is considering this. I have been a loyal UPS'er and

my fault lies in my medical disposition. I don't know what to do at this point, but I am facing considerable mental hardship that seems to worsen with each passing day. I am tired of being told that there may not be a job for me. The organization I was once proud to say I worked for has turned on me. My illness has no bearing on how I should be treated. For years I never complained when I was subjected to hardships on the job. When my health deteriorated, the leaders who were there to protect me and see that I was taken care of soon turned against me.

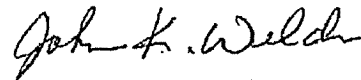

I should only have to fight one battle – my illness. Because of the treatment I have received, the battles I fight are many. I am in fear of losing my job. My thoughts have been consumed with the words, "We may not have a job for you". You have mentioned this to me as well Kevin. I am very confused and troubled. I have had to endure mental and emotional stress by those who are considered my partner. I was told by Aetna that I am on short-term disability, yet you told me that I am on long term disability. I am confused and feel that once again I am being treated inappropriately. I cannot navigate the disability process because UPS tells me one thing and Aetna tells me another. I am confused by the process, the treatment towards me, and also the things I have been told. I am just waiting around for a letter telling me that I have been terminated after 21 years of service. I receive calls every week asking if I have been terminated.

I am sure those that I have mentioned in this letter will deny the allegations I have made. To satisfy your own curiosity you must speak to Paul Turner. He will tell you what was said about our illness and how small and insignificant we felt when told that our disease was causing UPS a problem. My wife, who I am presently divorcing right now, will tell you how Tom Soregaroli painted himself as a caring associate over the phone, only to use the information about my medication against me. My wife has nothing to gain from lying as we are presently engaged in a very difficult divorce. She has pure hatred for Tom Soregaroli for what he did to me and my family. He was promoted after I was busted down to supervisor. His plan was quite effective.

I have lost weight and isolated myself because of this ongoing treatment. My world is a very dark place right now. The ultimate torture has been that which has affected my mental state. I have been subjected to embarrassment, ridicule, threats, and substantial loss of income over the years. The end result is where I am presently suffering severe emotional distress as a result of the combination of these events. I have lost my family, wife, kids, but also myself. Now it seems as if my job will be my next loss. This treatment has unearthed many demons from my past. I no longer believe this organization to be filled with men and women who are my partner. I am at the point now where I have no one to turn to. I am very alone, and my destiny lies in the hands of those I have given up believing in long ago. The only glimmer of light throughout this process has been my immediate Manager, Bob Rizzo. He calls every week and shows concern of my well being. He tells me first and foremost is my health, and that UPS comes last. Bob has been able to explore the part of him that makes him human.

In the letter you sent to me on 4 February 2008, you mentioned that your records do, in fact, reflect that I was approved for short term benefits under UPS' Income Protection Plan ("IPP"). You stated that I provided medical documentation at this time. I don't recall having done that. I would like to see a copy of that documentation. Furthermore, I would like to mention that you have refused to make reasonable accommodations as required under the Americans with Disabilities Act.

Sincerely,

John K. Welch

Subject: Re: John Welch

Interesting that my name came up about medications with John. If my memory serves me correctly, John wore his "Ripley's-Belive-It-Or-Not" family history of being medical marvels on his sleeve and BRAGGeD in a macabre fashion to anyone who would listen about the unexplainable sudden deaths so many of the men in his family experienced. He wore the fact that he was still alive as the second biggest miracle of the Christian faith! Yet with all of that talk, I was under the impression he took NO medication. He led me to believe he didn't believe in that stuff the doctors said and he was a tough guy who didn't worry about it! So, if he told someone about meds, it wasn't me. This email is the first I ever heard such a thing and is in complete contrast to my recollection....
What other folks seem to only remember talking to me once they get in trouble? As a matter of fact, now that I think about it...I was going through the heart issues with Carmine Mancuso at the time which sparked John to share with me his Vast knowledge about hearts...
I never asked...he just couldn't wait to let me know he was such an expert.
I assume we're talking about his heart...it's the only family history thing I knew about him...

Hello Cindy, see you are doing great things, now in Italy, wow !!
I have to figure out how we can get together about talking about John Welch from the Foster Ave Local Sort, some issues came up and he makes reference to being demoted and he was never told why, also he says that you were questioning him about medications he might have been taking and also had Tom Soregaroli call his wife to find out what med's he was on.

We cant dial into Europe from the district but I have Maurice Pazmino looking into a way I can call you, also I spoke to craig owen as well regarding john.

Another item is we were doing some house cleaning and guess what we found, some of your UPS items in boxes from I guess when you went on that finance assignment to corp. So they are still here, guess when you come back to the states we can take care of that.

Kev,

On Thursday October 16th John Welch left me a message on my cellphone. He said " Steve, how are you? It's John Welch. Well I had some issues - major issues. Had to go into the VA. They put me in a lockdown lockward for like a month. I have another appointment next week and em should be back to work. Guess I'll talk to you when you get a chance. I'll give you a call back. If you don't get a chance to get back to me I'll call you early next week or when I go to the doctor. Thanks Steve I'll talk to you soon."

Steve
